## Projects & Trainings

- Abode is a project that works on providing lodging, primarily home-stays for vacation rentals and tourism activities. Anyone who has property and wants to provide lodging, primarily home-stays for vacation rentals and tourism activities can create an accessible abode account and register as a host. so. people can list their space in it and book unique accommodations anywhere in India while traveling. It's been created using react JS as a frontend technology, node JS for the back-end, and for the database, we have used MySQL.
- Ecommerce single page webpage using ReactJS
